

# Healing through the Four Aspects of Reiki And Family Constellation

With Paul Mitchell and Timothy Cunningham

January 19—23, 2011 ~ Salem Oregon

24 CEUs available ~ Prerequisite: First Degree Reiki

*“How we create, manage and play in our day to day life  
is profoundly affected by how we hold our inner story.*

*Life is the whole story - not just the joy or fun- it is also the deep wellspring  
of meaning that comes from embracing our challenges and discovering their blessings.*

*Each of us is ultimately more capable than we can imagine.*

*It is this imagination factor that becomes enlivened through constellation work.”*

Timothy Cunningham

Since learning the art of Reiki, you’ve experienced subtle and significant energy moving in your life. Many students and practitioners want to explore more.

Incorporating the four aspects of Reiki- Healing Practice, Personal Development, Spiritual Discipline and Mystic Order- helps to expand the way you work with the mystery of your own life and where you want to go.

Family constellation work offers the opportunity to see your own life through your heart’s desire, to understand the roots of your life story, and the contributions of your ancestry,

This remarkable work offers release and expansion into a more potent way of living.

This healing event is a unique opportunity to bring together and experience both of these arts in a pairing that truly offers depth, awareness and celebration.

Timothy Cunningham is an author, inventor, counselor, storyteller, group therapy facilitator, creator of children’s curriculum, books and science toys. He is an accomplished Family Constellation leader and has facilitated groups since 1997.

Paul Mitchell is *Head of the Discipline* of Usui Shiki Ryoho, the Usui System of Natural Healing. A student of Hawayo Takata, Paul facilitates gatherings and teaches classes and workshops for Reiki students around the globe, helping to deepen their understanding and practice of Reiki.

## Registration
